PROJECT

- **GAME- HUB USING C++**
In this project I used **C++** language to make a menu based game hub which asks user to select a game of their choice. The user can play any game of his choice multiple times.
- **SIMPLE GAMES USING JAVASCRIPT**
Games like jump and dodge obstacles, flappy bird, falling ball game and more.
- **To-Do LIST and CALCULATOR USING JAVASCRIPT**
A web page helping you to note down things you want to do made using java script and a calculator for you to perform calculations including a tip calculator.
